

PRETREATMENT AUXILIARIES		Scouring Agents & Detergents			<div> ● Highly Suitable ● Suitable </div>				
PRODUCT NAME	PRODUCT DESCRIPTION	SUITABILITY			COMPLIANCE				
		Woven	Knit	Denim	GOTS	ToxFMD	Eco Passport	ZDHC MRSL	Bluesign Submission
DESILON RDT	Non enzymatic desizing agent with lubricating properties	●	●	●	●	●		●	✓
DESILASE LT-5	Low temperature amylase based desizing agent	●		●		●		●	
DECOGENT EC-LF CONC	Eco-friendly detergent and wetting agent	●	●	●		●	●	●	✓
DECOGENT CS-PD (LF)	A nonionic wetting and scouring agent for bleaching process with hydrogen peroxide	●	●	●			●		
DENIBOOST JB65	Effective detergent and oil removing agent	●	●	●		●	●	●	
PEROXYL 5	Peroxide bleaching stabilizer for cellulose preparation	●	●	●	●				
TRIDANT 1000	3 in 1 agent including detergent, sequestering agent and peroxide stabilizer	●	●	●			●		
OX QUENCH RX-L	Catalase-based peroxide removing agent used in post-bleaching operation	●	●	●		●		●	
DEPISOFT N218	Engineered cellulase for outstanding bio-polishing effect		●	●		●		●	✓

DYEING AUXILIARIES		Dyeing Auxiliaries & Fixing Agents							
PRODUCT NAME	PRODUCT DESCRIPTION	SUITABILITY			COMPLIANCE				
		Woven	Knit	Denim	GOTS	ToxFMD	Eco Passport	ZDHC MRSL	Bluesign Submission
UNITONE RD-LF	Levelling agent for reactive and direct dyeing	●	●		●				
METASOL AD	Sequestering & dispersing agent or soaping agent for dyeing process	●	●	●	●				
DESOLUBE MR	Lubricating agent to prevent crease marks and running marks in dyeing process	●	●	●	●				
FIXMAX PLUS	Cationic fixing agent for direct and reactive dyes	●	●	●	●				
FIXALON HS	Cationic fixing agent for direct and reactive dyes	●	●	●		●		●	
COOLCAT EP	Cationizing agent for cationization of cotton fibres in pigment dyeing	●	●	●	●				

FINISHING AUXILIARIES		Softeners							
PRODUCT NAME	PRODUCT DESCRIPTION	SUITABILITY			COMPLIANCE				
		Woven	Knit	Denim	GOTS	ToxFMD	Eco Passport	ZDHC MRSL	Bluesign Submission
DECOSOFT ES CONC	Concentrated esterquat softener in paste form	●	●	●	●	●		●	✓
DECOSOFT ESG	Esterquat softener in paste form	●	●	●	●	●		●	
DECOZONE Q-N1	Ozone resistant esterquat softener in paste form	●	●	●	●	●		●	✓
DECOZONE Q-MAX	Superior ozone resistant esterquat softener in paste form			●	●				
DECOZONE Q-25	Non-yellowing, ozone resistant cationic softener in paste form	●	●	●	●	●		●	
DECOSOFT F-CWS	Cationic softener in flake form	●	●	●		●		●	✓
ELASTOSIL GX	Silicone softener that imparts natural, cooling touch with good shear stability	●	●	●	●	●		●	✓
ELASTOSIL ME	Silicone softener that imparts superior smoothness and elastomeric softness	●	●	●		●		●	✓
ELASTOSIL ULTRA 38	Silicone softener that imparts superior softness & smoothness to yarn, fabric and garment, with good shear stability		●			●		●	
ELASTOJET 02	Hydrophilic silicone softener that imparts superior softness and smoothness with good shear stability	●	●	●	●	●		●	✓
HYDROSIL PES	Silicone softener which imparts excellent wetting and wicking property with good softness for any type of synthetic fabrics	●	●	●		●		●	

CHEMICALS FOR DENIM WASHING			Stone Washing			<div><div></div> Highly Suitable</div> <div><div></div> Suitable</div>				
PRODUCT NAME	PRODUCT DESCRIPTION	SUITABILITY			COMPLIANCE					
		Woven	Knit	Denim	GOTS	ToxFMD	Eco Passport	ZDHC MRSL	Bluesign Submission	
DEPILASE F1 ECO	Neutral powder enzyme formulation containing buffers and anti-stain agents for use at 30 - 55 °C which produces extra high contrast denim wash look			<div></div>	<div></div>	<div></div>		<div></div>	<div></div>	
DEPILASE F1 MAX	Neutral powder enzyme formulation containing buffers and anti-stain agents for use at 30 - 55 °C which produces high contrast denim wash look			<div></div>	<div></div>	<div></div>		<div></div>	<div></div>	
DEPILASE CT-A	Neutral powder enzyme formulation containing buffers and anti-stain agents for use at 30 - 55 °C which produces bright cast denim wash look			<div></div>		<div></div>		<div></div>	<div></div>	
DEPILASE HC-GG	Neutral powder enzyme formulation containing buffers and anti-stain agents for use at 30 - 60 °C which produces medium contrast denim wash look			<div></div>	<div></div>					
DEPILASE COMBO ULTRA	2 in 1 product which combines desizing and stone wash effect suitable for 40 - 60 °C			<div></div>		<div></div>		<div></div>		

CHEMICALS FOR DENIM WASHING			Anti Back Staining Agent							
PRODUCT NAME	PRODUCT DESCRIPTION	SUITABILITY			COMPLIANCE					
		Woven	Knit	Denim	GOTS	ToxFMD	Eco Passport	ZDHC MRSL	Bluesign Submission	
DEPISOL PRIME	Premium liquid anti re-deposition product for denim washing with very good anti back staining properties for both cotton and polyester			●	●	●		●	✓	
DEPISOL PRO	Premium liquid anti re-deposition product for denim washing with very good anti back staining properties for both cotton and polyester. It does not affect tensile strength of lycra in stretch fabric			●	●	●		●	✓	
DEPISOL SAGA	Liquid form anti re-deposition product which contains specially formulated polymers and dispersing agents for cotton part	●	●	◐		●		●		
DEPISOL PPA	Powder form anti re-deposition product in high hardness water which contains specially formulated polymers and dispersing agents for cotton part			●	●					

CHEMICALS FOR DENIM WASHING			Special Chemicals for Denim							
PRODUCT NAME	PRODUCT DESCRIPTION	SUITABILITY			COMPLIANCE					
		Woven	Knit	Denim	GOTS	ToxFMD	Eco Passport	ZDHC MRSL	Bluesign Submission	
INDIBOND FAST 03	Fixing agent to improve dry and wet crocking / rubbing fastness for indigo and sulfur dyed denim			●		●		●	✓	
DENIBOOST OX	Special detergent that can effectively removes yellowing of fabric caused by oxidation or multiple garment processing			●	●	●		●	✓	
DENIBOOST CL-B	Booster / Accelerator for hypochlorite bleaching of indigo dyed denim			●	●					
ODOGONE 01	Effective anti microbial and natural disinfectant to eliminate bad odour due to organic or inorganic source on fabric or garment in industrial wet processing	●	●	●		●		●
